OPEN-END SPANNERS WITH RING RATCHET IN A SET - 8 TO 19 MM

Whether in industrial use, in trade or when tightening bolts on the vehicle - with the combination ratchet wrench from **GEDORE** you have a precise and reliable tool for the most common screw connections.

The **GEDORE 7 R-012 combination ratchet wrench set** contains 12 ratchet wrenches in a robust steel case in various sizes. From wrench size 8 to 19 mm, the set contains the right tool for different areas of application. The torsion-resistant construction of the wrenches ensures maximum torque transmission. The Unit Drive Profile ensures a secure connection between the combination ratchet wrench and the screw or bolt. The even power transmission via the wave-shaped profile ensures an even distribution of pressure even under the highest loads - the screw is prevented

from turning and being damaged. With an additional adapter, the ring ratchet wrench becomes a ratchet with a low installation height.

Set of open-end spanners with ring ratchet 7 R-012

1

UNIT DRIVE PROFILE (UD)

- Even power transmission thanks to the wave profile - this protects the screw from damage and ensures a secure hold even under the highest loads

2

RATCHET FUNCTION

- In conjunction with an adapter, the wrench quickly becomes a ratchet that can also be used in tight spaces thanks to its low overall height

3

COMPACT METAL CASE

- Safely sorted and stowed in the blue box with plastic insert

4

OPEN-END WRENCH AND RING RATCHET IN ONE TOOL

- On one end precise mouth: ground to the exact nominal size for optimal contact surfaces. On the other end is a ratchet wrench with the proven mechanism of the U-20 ratchet for ratcheting loosening or quick tightening

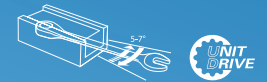

„With the combination ratchet wrench set 7 R-012, you always have the most common sizes of the practical GEDORE classic at hand.“

BIT SET 1/4" WITH RATCHET IN A CLEARLY ARRANGED MINI BOX

A 38 part bit set in a practical Mini L-Boxx. From bits and inserts to extensions, ratchets and multi-handles; the set offers a solution for all conceivable 1/4" applications in . And although there is so much in it, everything has room in a practical Mini L-Boxx.

The 38-piece 1/4" bit set FLEX 1102-038 from GEDORE is perfect for universal use, e.g. for servicing and maintaining windows. The standard bits and inserts included in the set cover the majority of applications. With the included 1/4" reversible ratchet and the multi-handle, you are prepared for changing applications, including different heights. The different lengths of the adapters also help to adapt to changing applications, they can also be used with a cordless screwdriver, for example. The set is rounded off by a practical Mini L-Boxx, which allows an immediate view of the contents through the transparent lid.

Bit Set 1/4" FLEX 38 pieces 1102-038

1

LOTS OF ACCESSORIES

- Adapters with different lengths enable optimal adjustment to the screw depth

2

PRACTICAL MINI L-BOXX

- The transparent lid enables a direct view of the contents of the box and prevents tiresome searching

3

FLEXIBLE USAGE

- Whether delicate screwing with the multi-handle or applying higher forces with the reversible ratchet, both are possible with this set

4

MOST COMMON BITS AND INSERTS

- Covering a wide range of applications and therefore universally usable

BIT SET WITH FLEXIBILITY AND QUALITY

„These bits have been in use in our workshop for years and are still alive, which is something you really can't say about 08 15 tools. I have now bought the item for my private workshop because I am convinced of it.“

2 IN 1 SOCKET WRENCH IN RANK AND FILE

Socket strip with inserts - a lot of tools in a small space.

The **socket strip with 1/2" sockets with C-profile SB C19 SL-010** from **GEDORE** is ideal for flexible attachment at the workplace and guarantees quick access to the tool. If required, there are additional slots for inserts. The 16-way header is preloaded with 10 inserts. The inserts are not only suitable for metric sizes, thanks to the C-profile they can also be used on inch screw connections without any problems.

Thanks to the high power transmission of the C-profile, the screw heads are protected, and damaged screw connections can also be easily loosened. The plug-in strip is not only perfect for storing inserts, there is also space for e.g. ratchets and sliding handles with a 1/2" square drive.

Socket wrench inserts 1/2" C-profile on socket strip, 10 pieces SB C19 SL-010

1

GENTLE ON THE SCREW HEAD

- High power transmission of the C-profile protects the screw heads

2

FLEXIBLY EXPANDABLE

- Can be expanded to include additional inserts as required

3

EVERYTHING AT HAND

- Fastening socket wrench inserts and e.g. ratchets

4

2 IN 1

- C-profile inserts designed for metric and imperial screw connections

ALWAYS
AT HAND

"Super easy for on the go work or as an addition to the tool wall. You have everything to hand."

NEW

SB C19 SL-010

SOCKET WRENCH SET FOR IMPACT WRENCH SW 10 - 24

Nuts for all compressed air and electric screwdrivers with ball lock.

The 7-piece 1/2" **power screwdriver set K 19-007** from **GEDORE** is ideal in combination with hand tools or screws for all repair and assembly work. The set consists of the most common sizes of SW 10-24 and leaves nothing to be desired for various applications. Thanks to the included 1/2" power wrench extension, even low-lying screw connections can be loosened easily. With the ball lock, the nuts are securely connected to the output and the change is still easy and uncomplicated. The set is stowed in a compact plastic case - perfect for storage or on the go.

Impact wrench set 1/2" 7 pieces K 19-007

1

COMPACTLY STOWED AWAY

- Everything is stored in a compact plastic case, ready to use

2

MOST POPULAR SIZES

- Set consisting of the most common sizes from SW 10-24

3

SECURE CONNECTION

- The ball lock connects the nuts firmly to the machine, but the change is easy and uncomplicated

4

SCREWS WITH DEPTH

- Extension for low-lying screw connections included in the set

SCREWS WITH
POWER

„The nuts are very comfortable to hold, it's fun to work with, and the quality is very good. I do a lot of work on my car and can only recommend the set.“

19 BMC 20 SOCKET SET 1/4"+1/2"

69 pieces

- › The GEDORE plastic ratchet box is suitable for industry, automotive as well as DIY & hobbyists
- › It is equipped with a black/blue foam check tool insert that makes missing tools easily visible
- › The droplet-like head of the reversible ratchets make this set ideal for the tightest of bolting positions
- › The reversible ratchets features a dual material handle, lever change and press-button release for easy, rapid and safe working
- › Depending on the wrench size, the sockets can be extended up to 375 mm in the drive depth

INDUSTRIAL GRADE PRECISION TORQUE WRENCH

The TORCOFIX is a torque wrench that allows the user easy adjustment and operation. With an adjusted accuracy of +/- 3% of the reading, the TORCOFIX resembles a Swiss watch.

The **TORCOFIX TF-K** from **GEDORE** offers the user significant advantages for optimal handling. The torque wrenches from 1-50 Nm are new, which extends the application range of the TORCOFIX TF-K from 1 - 850 Nm. The ergonomic handle ensures a centered hand position and thus good power transmission, the trigger signal can be clearly felt and heard. The torque is set intuitively using the twist grip, and locked securely using the end of the grip. The double scale with Nm and lbf-ft is located underneath a window with a magnifying glass effect for better readability. The triggering torque wrench with integrated ratchet and 1/4", 3/8", 1/2" and 3/4" drive can be easily switched

from left to right tightening. To do this, the mushroom head with ball lock is simply repositioned. Thanks to the robust, painted tubular steel construction, the TORCOFIX TF-K easily masters the high demands of industry and trade.

Torque wrench TORCOFIX TF-K 1/4"-3/4" 1-850 Nm TF-K

1

CONTROLLED TIGHTENING

- Controlled and precise screw tightening from 1 - 850 Nm
- Adjusted to a maximum deviation of +/- 3% and more precise than the +/- 4% required in the standard
- Including test certificate according to DIN EN ISO 6789-2:2017

2

SIMPLE AND EASY TORQUE ADJUSTMENT

- Thanks to the fixing depressions on the scale frame, there is optimal counter support when setting the torque

3

PERMANENTLY LEGIBLE

- Scaling and lettering protected under viewing window

4

IMPROVED READABILITY INCLUDING MAGNIFYING FUNCTION

- The optimized dual scale, the coloring and the central alignment of the main scale and the vernier ensure that the setting values are easier to read

5

INTUITIVE, ERGONOMIC APPLICATION

- The hand is centered in the middle of the handle thanks to the ergonomic shape of the handle.
- Clearly audible and tactile torque release

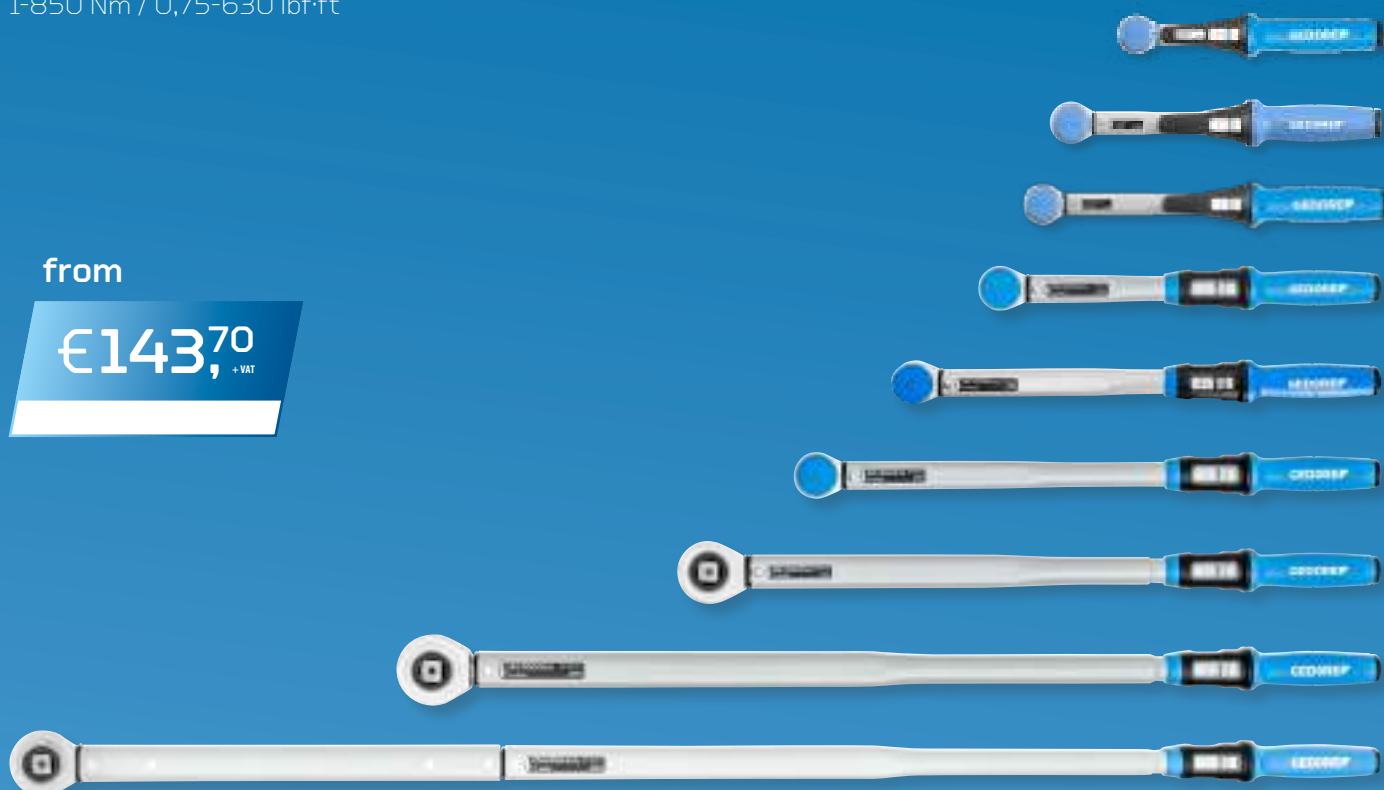

„The TORCOFIX offers the necessary precision for every screw and bolt connection that can or must be tightened with a torque wrench - that's quality Made in Germany.“

TF-K TORQUE WRENCH TORCOFIX TF-K

1-850 Nm / 0,75-630 lbf-ft

from

€143,70
+ VAT

- > Controlled tightening in the most common range of 1 - 850 Nm / 0,75 - 630 lbf-ft
- > Adjustable, releasing and sturdy tubular torque wrench with integrated ratchet and with square drive for industry and the trades
- > Classified as per DIN EN ISO 6789-2:2017 Type II Class A; adjusted to a maximum permissible +/-3% deviation and thus with a greater precision than the standard-stipulated +/-4%
- > Incl. traceable test certificate (DIN EN ISO 6789-2:2017)
- > For controlled bi-directional tightening
- > 1/2" mushroom head square with ball lock. From 3/4" with square socket and pin retention
- > Robust, matt powder-coated tubular steel construction, with galvanized ratchet and high-quality plastic parts
- > New ergonomic handle, shaped according to the natural grip position of the hand
- > Clearly recognisable and tactile hand centring aid and calibration aid in the middle of the handle

- > With vernier scale for Nm main scale for setting intermediate scale values; lbf-ft setting only via main scale
- > Vertical alignment of the scale, torque adjustment therefore suitable for left and right handers
- > Scale line positioned directly above the scale prevents reading errors (parallax errors)
- > Unit inscription integrated in the scale frame and also protected against abrasion via viewing window,
- > Precise mechanism generates a clearly perceptible and audible trigger signal when the set torque value is reached
- > Incl. roll away protection, prevents rolling away when the tool is put down

TORQUE WRENCH FOR INSERT TOOLS 9X12 MM / 14X18 MM

Adjustable, releasing and robust tubular torque wrench with square mount for industry and trade.

The **TORCOFIX SE** from **GEDORE** is a releasing torque wrench with a rectangular holder. Depending on the application, you can work from the front - for example with a socket wrench - or from the side - for example with a reversible ratchet and socket wrench insert. Ideal for assemblies in cramped and hard-to-reach places. The torque wrenches from 5-50 Nm are new, which extends the application range of the TORCOFIX TF-SE from 5 - 400 Nm. The variants are suitable for controlled right-hand and left-hand tightening. Using the torque wrench is easy and almost intuitive: The ergonomic handle promotes a centered hand position for good power transmission and at the same time transmits the trigger signal in a tactile manner. In addition, the torque is set using the rotary handle.

The set value is locked at the end of the handle. The double scale with Nm and lbf-ft is located underneath a window with a magnifying glass effect for better readability.

Torque wrench TORCOFIX SE 9x12 mm / 14x18 mm 5-400 Nm TF-SE

1

TOOL QUICK CHANGE SYSTEM

- Guaranteed flexible work - ideal for installations in tight and difficult-to-reach places with the 9x12 mm / 14x18 mm mount

2

EASIER TORQUE ADJUSTMENT

- Thanks to the fixing depressions on the scale frame, there is optimal counter support when setting the torque

3

PERMANENTLY LEGIBLE

- Scaling and lettering clearly marked and very easy to read thanks to good contrast

4

IMPROVED READABILITY

- The optimized double scale, the coloring and the central alignment of the main scale and the vernier ensure that the setting values are easy to read

5

INTUITIVE, ERGONOMIC APPLICATION

- The hand is centered in the middle of the handle thanks to the ergonomic shape of the handle.
- Clearly audible and tactile torque release

"The Torcofix can be adjusted very precisely and works great. I used it to overhaul an engine and am completely satisfied."

- > For controlled right- and left-hand tightening (insert tool for change of direction)
- > Controlled screw tightening in the most common range of 5 - 400 Nm / 3,7 - 300 lbf·ft (guide for screws M7-10.9 to M20-6.9)
- > Adjustable, releasing and sturdy tubular torque wrench with rectangular cavity for industry and the trades
- > Classified as per DIN EN ISO 6789-2:2017 Type II Class A; adjusted to a maximum permissible +/-3% deviation and thus with a greater precision than the standard-stipulated +/-4%
- > Incl. traceable test certificate (DIN EN ISO 6789-2:2017)
- > Rectangular holder incl. ejector aid in 9x12 mm and 14x18 mm versions
- > Robust, matt powder-coated tubular steel construction, with galvanized ratchet and high-quality plastic parts
- > New ergonomic handle, shaped according to the natural grip position of the hand

- > Clearly recognisable and tactile hand centring aid and calibration aid in the middle of the handle
- > Double scale Nm / lbf·ft and vernier are protected from abrasion and contamination by an enlarged viewing window
- > With vernier scale for Nm main scale for setting intermediate scale values; lbf·ft setting only via main scale
- > Vertical alignment of the scale, torque adjustment therefore suitable for left and right handers
- > Scale line positioned directly above the scale prevents reading errors (parallax errors)
- > Unit labeling integrated in the scale frame and also protected by viewing windows,
- > Precise jump-off mechanism generates a clearly perceptible and audible trigger signal when the set torque value is reached
- > Incl. roll away protection, prevents rolling away when the tool is put down

HEAVY DUTY TOOL TROLLEY

The workshop trolley is unparalleled on the market.

The **GEDORE tool trolley 2004 0620** has a torsion-resistant body made of sheet steel, which is corrosion-resistant and scratch-resistant and powder-coated, and has a total load capacity of 1 ton. Up to a load of 750 kg, it is Easy to manoeuvre and mobile. The 2004 workshop trolley has been transformed from a mobile storage solution into a mobile workshop thanks to the three new lid variants, with a stainless steel, wooden or plastic plate available. The drawers offer sufficient storage space for tools and, with the ball-bearing guide rails, ensure smooth full extension even with heavy loads.

Tool trolley 2004 0620

1

HIGH OVERALL LOAD CAPACITY

- Secure stationary and mobile storage of all necessary tools without affecting the product properties of the trolley

2

SMOOTH RUNNING, MANEUVERABILITY AND DIRECTIONAL STABILITY

- Easy to steer, even under maximum load

3

HIGH LOAD CAPACITY OF THE DRAWERS

- The combination of total load capacity and ball-bearing guide rails allows a high loading of each individual drawer

4

EVEN MORE FLEXIBILITY

- 3 new lid variants turn the mobile storage solution into a mobile workshop

WORKSHOP TROLLEY 2005 XL WITH 25% MORE SPACE

Not much more needs to be said about the **GEDORE** 2005 tool trolley – unless the classic comes in a new XL version. All the advantages and properties of the mobile workstation combined with 25 percent more volume, which is distributed across extra-wide drawers.

The **GEDORE tool trolley 2005 XL 0330** is the solution when the mobility and maneuverability of a workshop trolley and the large storage space of a workbench are required. At 792 mm, the drawers of the 2005 XL are a full 17 cm wider than those of the standard model: an increase in drawer volume of 25%. The load – a maximum of 1,000 kg in static operation, 750 kg in mobile operation – is easily carried by the drawers running on ball-bearing guide rails and the chassis with trapezoidal axle construction. Even under full load, the 2005 XL retains its manoeuvrability, smooth running and directional stability.

Tool trolley 2005 XL 0330

1

SMOOTH RUNNING, MANEUVERABILITY AND DIRECTIONAL STABILITY

- Easy to move, even under maximum load

2

HIGH OVERALL LOAD CAPACITY

- Secure stationary and mobile storage of all necessary tools without affecting the product properties of the trolley

3

HIGH LOAD CAPACITY OF THE DRAWERS

- The combination of total load capacity and ball-bearing guide rails allows a high loading of each individual drawer up to 60 kg

4

LARGE STORAGE SPACE

- Extra wide drawers ensure plenty of storage space

*EVEN WIDER,
EVEN BIGGER*

"I don't have to make any compromises with the 2005 XL 0330 tool trolley from GEDORE. Enough space for all tools and super flexible!"

2005 XL WORKSHOP TROLLEY

Body:

- > Storage tray made of ABS plastic with compartment for small parts
- > Manoeuvrable and easy to control with the driving and steering handle
- > Side panels with Euro perforation 10 x 38 mm for attaching hooks and tools
- > Edge protection to minimize the damage of impacts
- > Sheet steel, corrosion-resistant and scratch-resistant powder-coated, GEDORE blue

drawers:

- > Central locking with cylinder lock
- > Wide drawers (W 792 x D 400 mm) with full extension, removable
- > Safety lock for each drawer, one-handed operation
- > Ball bearing guide rails
- > Can be individually equipped with longitudinal and transverse dividers (also available individually)
- > Load capacity per drawer 60 kg, lower heavy-duty drawer 70 kg
- > Total load capacity 1000 kg static (750 kg dynamic)
- > 2 roller-bearing GEDORE high-performance wheels (fixed castors Ø 200 mm)
- > 2 ball-bearing mounted GEDORE smooth-running wheels (swivel castors Ø 125 mm), both with total brakes
- > Even under maximum loads, the GEDORE axle design ensures: smooth running, maneuverability and directional stability
- > Longitudinal (LT) and transverse dividers (QT) made of galvanized sheet steel (also available individually)
- > Can be optimally equipped with GEDORE tool modules (No. 1500 ES/1500 CT or 2005 CT)
- > Special colors and designs on request

VDE TOOLS FOR ELECTRIC AND HYBRID VEHICLES IN THE WORKSHOP TROLLEY

The complete solution for vehicle mechatronics specialists specializing in electric and hybrid vehicles: 103 hand tools and special tools for the automotive sector with protective insulation, housed in a specially marked workshop trolley.

The **KL-4600-200 VDE** workshop trolley from **GEDORE** with its 103-part VDE range, which is specially designed for repair and maintenance work on hybrid and electric vehicles from all manufacturers, contains complete 3/8" and 1/2" socket wrench sets and pliers, screwdrivers, spanners and a VDE torque wrench, also digital voltage testers, safety locks, warning signs and other accessories. All tools are insulated according to EN60900 / EC 60900 and designed for the professional securing of hybrid and electric vehicles. The contents of the workshop trolley are sensibly divided into foam inserts on three of the six drawers, three more drawers can be individually equipped. The high total load capacity of the VDE workshop trolley of 900 kg in stationary and 650 kg in mobile operation allows a lot of leeway when equipping without affecting the maneuverability and directional stability of the trolley.

VDE Tool trolley KL-4600-200

1

RESILIENT, MOBILE WORK BASE

- Total load capacity 900 kg, 6 drawers can be loaded up to 40 kg and high-performance chassis

2

SPECIAL TOOL TROLLEY

- Red special paint indicates the exclusive purpose of the trolley, including holder for ISO floor mat

3

TOOL FOR AUTOMOTIVE MECHATRONICS

- Hand and special tools such as digital voltage testers, safety locks, warning signs and much more. In top quality

4

ELECTRIC AND HYBRID VEHICLES FROM ALL MANUFACTURERS

- Complete tool kit with protective insulation according to EN 60900 / EC 60900

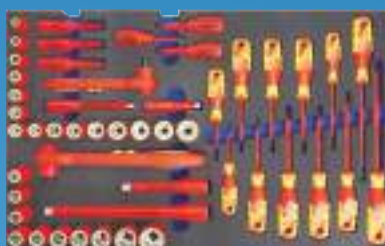

„The range is perfect for EV work and I have a workstation just for that purpose with the eye-catching red trolley.“

KL-4600-200
**TOOL TROLLEY WITH
 HIGH-VOLTAGE ASSORTMENT**
 103 pieces

- > With its unique kit assembly, the high-voltage VDE tool trolley is ideal for working on hybrid and electric vehicles safely
- > Perfect for repair and maintenance work on vehicles of all manufacturers.
- > All tools are insulated with protection according to EN 60900/EC 60900.
- > The tool trolley has side panels with Euro perforations, a heavy-duty chassis with external bearings, ball-bearing guide rails, and central locking.

THE ORGANIZATIONAL TALENT FOR ON THE GO

The **GEDORE** tool box module **WorkMO B3 1110 WM 321** is the practical solution for craftsmen on tour or mobile service employees

The robust, resilient **module WorkMO B3 1110 WM 321** is made of a light aluminum-plastic mix and weighs only around 22 kg. Nevertheless, the two fully extendable drawers can each be loaded with up to 60 kg. In combination with the

GEDORE 1500 ES/1500 CT foam tool modules, all tools are perfectly stowed away and organized during mobile service calls. Rounded plastic edges serve as protection against impact and scratches and make the box even more robust. Under the drawers there is a compartment with a lock for **GEDORE** L-BOXX® 136 no. 1100 L and for **GEDORE** S-BOXX® no. 1110 WMSB 3. The WorkMo B3 is compatible with Sortimo® in-vehicle equipment and load securing and is also crash-tested.

Tool box module WorkMo B3 1110 WM 321

1

PERFECTLY ORGANIZED

- With two heavy-duty drawers for tool modules and a compartment for L-BOXXES, the WorkMo B3 offers plenty of space for orderly tool storage

2

COMPACT

- With the dimensions W 789 x D 396 x H 506 mm and a weight of 22 kg, the box module is ideal for use in a service vehicle

3

LIGHT AND ROBUST

- The box module from GEDORE is made from a light but highly resilient aluminium-plastic mix, up to 50% lighter than comparable solutions

„As a mobile service employee, I need a system that allows me to keep my equipment tidy. The box module from GEDORE is the perfect solution for my work.“

SIMPLY SEPARATE AND PEEL OFF

A separator and puller set for tight fitting tapered roller bearings, ball bearings, inner races, battery terminals and other thin-walled parts up to a diameter of 70 mm and an installation depth of 125 mm.

The **separating puller set 1101-1.40-1.12-13** from **GEDORE** contains a separating device and puller in two different sizes including the matching spindles. To remove tightly fitting or thin-walled components, the sharp separating blades, which can be used on both sides, are

pressed behind the part to be removed and safely removed with the removal device. Depending on requirements, the pullers can be used as two-arm or three-arm pullers. The self-pressing hooks make it particularly easy to use - another plus in addition to the safety and durability of the forged parts. The complete squeegee set is housed completely sunk in a foam insert. The set not only fits perfectly in the supplied L-BOXX, but is also stackable or fits in the drawer of a tool trolley.

Separator and puller set with two and three arms 1101-1.40-1.12-13

1

SIMPLE APPLICATION

- Puller with self-tightening hook and separating blade usable on both sides

2

MANY USES

- For tight fitting and thin-walled components up to 70 mm in diameter and 125 mm installation depth

3

2 IN 1 PULLER

- Conversion from two-armed to three-armed pullers in a few simple steps

4

EASILY STOWED STATIONARY AND MOBILE

- In the tool trolley or in the supplied i-BOXX – the foam insert fits

„The puller set makes it easy for me: I take the i-BOXX with me and can work on ball bearings or battery terminals. I usually don't need more than a few additional adapters.“

NEW

1101-1.40-1.12-13 SEPARATOR-PULLER SET

2- and 3-armed, 16-pieces

- > 2 and 3-arm separating and external pullers with self-pressing hooks
- > For pulling tight taper roller bearings, ball bearings, inner races, battery terminals and other thin-walled parts up to a maximum diameter of 70 mm and a maximum installation depth of 125 mm
- > Made in Germany
- > Separating knife usable on both sides
- > The puller can be expanded with additional accessories such as 1.81/10 adapters
- > Can be used flexibly thanks to 2 and 3 arm components
- > With check tool insert for quick identification of missing tools

A REAL ALL-ROUNDER - PLIERS WRENCHES UP TO 52 MM

The pliers wrench from **GEDORE** is a combination of wrench and pliers in a single tool.

The **183 10 JC pliers wrench** from **GEDORE** is the ideal tool for countless applications in industry, trade and for the DIY'er. The pliers wrench is suitable for holding, pressing, gripping and bending various workpieces, which is what makes the interaction of the mechanics and the smooth jaws possible in the first place. Anyone who works with the pliers wrench can rely on an enormously high pressing and clamping force: the jaws act on the workpiece with more than ten times the manual force.

The smooth and parallel jaws leave no traces on the materials. High-quality surfaces, materials and screw connections are not damaged. Workpieces up to a maximum of 52 mm or 2" can be machined, replacing a whole set of metric and imperial wrenches.

Pliers wrench 183 10 JC

1

HIGH QUALITY ASSEMBLY

- The smooth surfaces of the jaws protect surface-sensitive screw connections or fittings

2

PRODUCTIVE AND EFFICIENT WORK

- The adjustment is made directly on the workpiece using quick adjustment. When working on screw connections, the stroke between the jaws helps and enables fast screwing like with a ratchet

3

THE ALL-ROUNDER

- The pliers wrench is the universal tool for tightening, bending, holding, pressing and gripping

4

HIGH POWER TRANSFER

- The excellent pressing and clamping force with tenfold translation guarantees a firm hold of the workpieces

STRONG GRIP

„The GEDORE pliers wrench is a real universal problem solver for various applications. The pliers wrench grips very tightly and practically without play.“

183 PLIER WRENCH

- > One tool that works like a spanner and pliers
- > Careful assembly of bolt connections with delicate surfaces (e.g. chrome-plated fittings)
- > Perfect for bending, holding, pressing and gripping a wide range of workpieces
- > Sliding mechanism and paralleled jaws for quick and easy adjustment, variable
- > Safe locking of the setting when the size of the opening is selected
- > Sliding mechanism may be activated from almost any setting
- > Protection jaws available as an option

SIX VDE SCREWDRIVERS WITH AN EXTRA SLIM BLADE

If a screw is deep and cannot be grasped by conventional screwdrivers, the SLIM DRIVE is used and impresses with its ultra-slim blade diameter.

The **SLIM DRIVE VDE 2162-2172 PM-06 VDE** screwdriver set from **GEDORE** consists of VDE slotted screwdrivers in sizes 3.5 4 5.5 and VDE Phillips screwdrivers in sizes PH 1 and 2 and SL PH 2. With an extremely small blade diameter, the screwdrivers in the SLIM DRIVE series effortlessly reach screws in deep screw shafts. They are VDE-insulated up to 1,000 volts and meet all the requirements of DIN EN 60900:2013-04 for safe

working under electrical voltage. The ergonomic 3-component Power Grip³ prevents wrist fatigue and is positively connected to the blade to ensure optimal power transmission.

VDE Screwdriver Set SLIM DRIVE 6 pieces VDE 2162-2172 PM-06

VDE 2162-2172 PM-06 VDE SCREWDRIVER SET SLIM DRIVE

6 pieces

- > For slotted, cross-head PH and plus-minus screws
- > Ultra-small blade diameter yet with full mechanical and electrical safety
- > Insulated up to 1000 V, according to EN 60900/IEC 60900, fully insulated blade
- > Ergonomic 3-component Power-Grip³ handle for maximum power transmission with minimum strain on the hand
- > With hanging hole on the handle for space-saving storage

€45,²⁰_{+ VAT}

Code	No.	Contents	Pieces	Weight kg
2928701	VDE 2162-2172 PM-06	VDE 2172 3,5 4 5,5, VDE 2162 PH1 2, VDE 2164 SL/PH2	6	0,59

1

INNOVATIVE

- Easy and protected access to deep-lying screws thanks to the ultra-small blade diameter

2

OPTIMUM POWER TRANSMISSION

- The positive connection between the 3-component handle „Power Grip³“ and the blade ensures high power transmission and torque

3

EFFICIENT WORK

- The roll-off protection and the labeling of output and size at the end of the handle ensure fast and efficient work

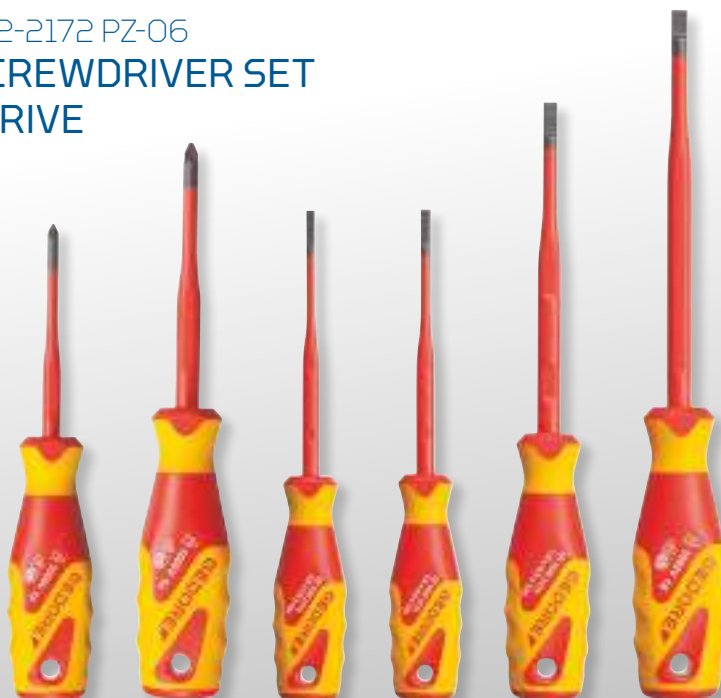

CUSTOM-FIT
AND SAFE UP
TO 1000 VOLTS

„Perfect fit, even if the screw head is not ideal, very good grips with high power transmission.“

ADJUSTABLE VDE PLIERS WRENCH UP TO 50 MM

Work on refined or very sensitive surfaces can be carried out without damaging the material.

The **VDE pliers wrench VDE 183 10** from **GEDORE** is ideally suited for use in the electronics sector. It easily masters holding, pressing, gripping and bending various workpieces up to a width across flats of 50 mm or 2". The VDE pliers wrench from **GEDORE** replaces two complete wrench sets, metric and imperial. Anyone who works with the pliers wrench can rely on an enormously high pressing

and clamping force: the jaws act on the workpiece with more than ten times the manual force. The smooth and parallel jaws leave no traces on the materials. High-quality surfaces, materials and screw connections are not damaged.

VDE Pliers wrench VDE 183 10

VDE 183 10 VDE-PLIER WRENCH

- > Adjustable, universal tool for wrenching work, bending, holding, pressing and gripping
- > Smooth jaws for gentle gripping of surface-sensitive workpieces (e.g. chrome-plated screw connections, bathroom fittings)
- > Function of an open-end ratchet
- > Unique functional jaw holder, e.g. for protective jaws
- > 21 setting positions and quick adjustment with automatic engagement function
- > Protective insulation up to 1000 V, according to EN 60900/IEC 60900, 2-fold Check-Tool insulation
- > DIN ISO 5743/IEC 60900

Code	No.	Size	Clamping reach mm	Length mm	Weight kg
3066088	VDE 183 10	10"	50	250	0.665

1

GENTLE ON SURFACES

- No damage to surface-sensitive screw connections (e.g. chrome-plated fittings) thanks to smooth and parallel jaws

2

QUICK AND EASY ADJUSTMENT

- The wrench size can be set quickly and easily using the sliding mechanism (0-50 mm or 0-1.7/8")

3

DIVERSE APPLICATIONS

- Thanks to the ingenious mix of wrench and pliers, the pliers wrench replaces 3 products
- Thanks to the ratchet function, the pliers wrench can carry out a wide range of applications, depending on the size

VDE UNIVERSAL TOOL

„Indispensable for me in the electronics sector. The pliers wrench simplifies work processes immensely.“

HANDY TRIO - VDE PLIERS SET FOR ALL ELECTRICAL WORK

VDE pliers set 1102-005 VDE: The three most important VDE tools in one set for all work on live workpieces.

precision cutting edges. All 3 tools are VDE-insulated up to 1,000 volts - and meet all the requirements of DIN EN 60900:2013-04 for safe working under electrical voltage.

VDE screwdriver PZ 1, needle-nose pliers and side cutters – three all-rounders that belong in every tool box, housed as **VDE pliers set 1102-005 VDE** in the practical L-BOXX. The VDE screwdriver is equipped with an ergonomic 3-component Power Grip³ for precise, fatigue-free work. The handle and the blade are positively connected to each other, so that an optimal power transmission is guaranteed. The VDE needle nose pliers and the VDE side cutter complete the set. Both have an ergonomic 2K handle and inductively hardened

VDE-Pliers-Set 3 pieces in L-BOXX Mini 1102-005 VDE

1102-005 VDE VDE PLIERS SET

3 pieces

€72,²⁶_{+ VAT}

- > Insulated up to 1000 V, according to EN 60900/IEC 60900
- > Envelope insulation
- > With VDE Impact diagonal cutter and VDE multiple nose pliers
- > With SLIM DRIVE VDE screwdriver for PZ Phillips screws
- > In GEDORE L-BOXX® Mini, including range of dividers

Code	No.	Contents	Length mm	Width mm	Height mm	Pieces	Weight kg

1

PRECISE, TOP-QUALITY CUTTING

- The cutting edges of the diagonal cutters and the needle nose pliers are inductively hardened and therefore extremely durable

2

PLIERS WITH ERGONOMIC HANDLES

- The ergonomic 2K handles on the side cutter and long-nosed pliers are made for long-term, comfortable use

3

OPTIMUM POWER TRANSMISSION WHEN SCREWING

- The positive connection between the 3-component handle „Power Grip“ and the blade ensures high power transmission and torque with the VDE screwdriver SLIM

4

COMPLETE SECURITY FOR ALL ELECTRICAL WORK

- All three tools are insulated up to 1,000 volts and meet the requirements of DIN EN 60900:2013-04

VDE MUST-HAVES TOOLS

„With the set as original equipment, you are optimally positioned. The quality of the VDE tools is top. The tools are not only very comfortable to hold, they are also precisely machined on the cutting edges and blades. That’s where you can see absolute top quality!“

KL-1000-20 A
KING PIN PRESS 65T

- › Designed for the quick and professional pressing out/pressing in of king pins as found on HGVs.
- › The king pin press with its adjustable press frame has been developed and adapted to satisfy the latest safety requirements. Thanks to its compact and ingenious design, the king pin press not only saves a lot of time but also allows for easy and, above all, safe operation.
- › The heavy-duty 65t hydraulic cylinder with integrated hand pump and the pneumatic quick-stroke 'extend/retract' valve enable even severely seized king pins to be extracted with ease.

Advantages:

- › One-person operation.
- › Developed according to the newest safety requirements.
- › Universally usable, on the vehicle as well as free-standing.
- › High time saving.
- › Universally adjustable press frame that can be turned 180°.
- › Easy and quick positioning on the vehicle due to the quick adjustment with three axes.

KL-1000-0115 RETAINING TOOL FOR WHEEL HUBS

€310,²⁴
+ VAT

- › The holding device enables the wheel head (wheel hub) to be counterheld professionally via the wheel studs.
- › Required e.g. for loosening and controlled torque tightening of the wheel bearing, quick-release axle, and brake disc bolts, as well as the wheel capsule.
- › Particularly suitable also when using with the KL-1005-1.. - wheel hub puller series., in conjunction with the mechanical drive kit.

Code	No.	Length, swivel arm mm	Bore Ø mm	Length mm	Weight kg

KL-1029-300 WHEEL HUB LIFTING TOOL

€99,⁷²
+ VAT

- › The wheel hub lifting tool enables easy and back-friendly lifting of heavy wheel hubs of commercial vehicle and trailer axles with the aid of a workshop crane and without the assistance of a second person.
- › The lifting tool can be infinitely adjusted to keep the wheel hub exactly in balance.
- › Advantageous e.g. for disassembling and assembling the wheel hub as well as for changing brake discs.

HGV PRESS FRAME, MECHANICAL

(mechanical)

- › The large and massive commercial vehicle press frame makes it possible to remove and install a wide variety of bushings, bearings or bolts directly on the vehicle.
- › For example, on extension arms, tippers, deposit tippers, lifting arms, hook lift systems, chassis parts and much more.
- › With additional pressure/support sleeves from the KL-0039 Series this can easily be supplemented with further diameters.
- › The bearing base included in the scope of delivery also allows the mobile NFZ press frame to be placed e.g. on a workbench, as well as for stationary use as a light-weight stand press for on the road, e.g. in commercial vehicle service or repair vehicles.
- › The length and width of the NFZ press frame can also be quickly adjusted using the extension rods and the holes in the base plates.

TOOLS FOR AGRICULTURE

**AGRICULTURAL VEHICLES
ARE PERMANENTLY EXPOSED TO EXTREME
AND ENVIRONMENTAL INFLUENCES.**

Repairs and maintenance must be carried out efficiently and quickly as possible, especially during harvesting and at the same time meet the highest safety standards.

The right tool - for standard or special applications - is the basis for smooth processes. The new GEDORE agricultural portfolio, specially tailored to these requirements, offers the right solution for every challenge. Whether you need to fix corroded bolts, work in hard-to-reach places or replace and repair sensitive components - with the new GEDORE agricultural portfolio, you can solve maintenance and repair challenges simply, quickly and efficiently maintenance and repair challenges simply, quickly and safely.

You will find an exclusive selection of our agricultural products now also in the new „**AGRAR-Selection**“ or online at www.gedore.com/agriculture-tools

NEW

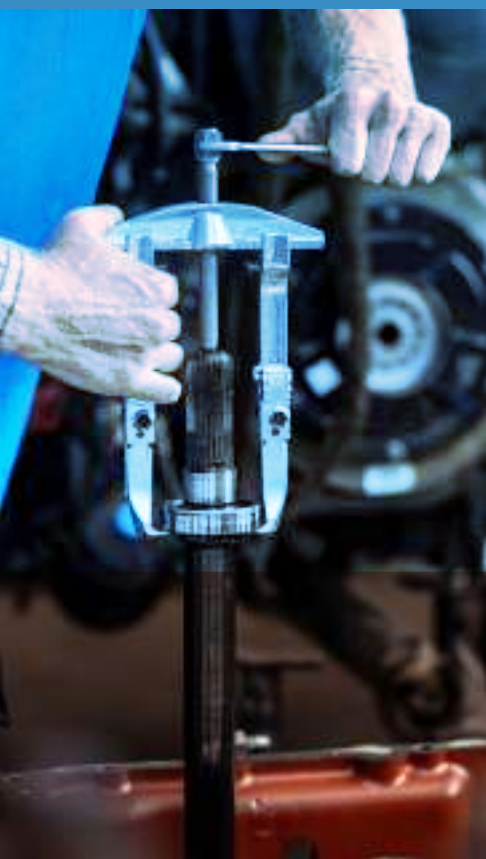

SAFE WORK PROCESSES WITH GEDORE

Both standard and special tools are developed to the highest technological standards and ensure safe and efficient working results for users worldwide. As in all areas of application, GEDORE also focuses on occupational safety in agriculture. That is why our tools are designed in such a way that, for example, in the event of unintentional incorrect loading of spanners, the tool will bend and not break.

Whether for repairs or maintenance work tractor, combine harvester, baler, potato harvesters or drum mowers - tools from GEDORE stand for fast and safe work processes.

*POWERFUL
AND ROBUST*

SAFE, PRECISE, POWERFUL

Bolted connections on agricultural machines sometimes require enormous forces when loosening and tightening. Sensitive components in particular require high-quality tools. With GEDORE products, the force is transferred precisely and safely to the fastener.

Torque tools such as the non length dependent and extremely light Dremometer made of aluminum, protect forces and ensure the best working results.

EVERYTHING XL IN THE WORKBENCH WITH TOOLS FOR AGRICULTURAL MACHINERY

A 198-piece tool assortment especially for agricultural machinery, housed in an XL workbench. All tools for service and maintenance work on tractors, combine harvesters, etc. are perfectly organised, stowed away and ready for immediate use at the workplace.

The **GEDORE mobile workbench 1504 XL-S-198** is a top-class mobile work station, equipped with a 198-piece range that is specially tailored to the common work of agricultural and agricultural machinery technicians. In addition to complete 1/4" and 1/2" socket wrench sets, the range also includes pliers, screwdrivers, impact tools and much more. Everything housed in practical foam modules for maximum organization. Four of the seven drawers, each with a load capacity of 40 kg, the lower, extra high heavy-duty drawer even 60 kg, are preloaded with tools in foam inserts. Three more drawers can be used according to your own requirements. For a better overview and easy access to the tools, all drawers have a full extension. When it comes to resilience, the 1504 XL also offers large reserves thanks to the torsion-resistant sheet steel construction. The total carrying capacity is one ton (1000 kg). The mobile

workbench is easily maneuverable even with a load of 750 kg and keeps running smoothly and directional stability. **GEDORE** also offers the 1504 XL-S-306 AGRAR workbench with a 306-piece professional range as extensive equipment.

Agricultural workbench with basic range 1504 XL-S-198 AGRAR

1

WORKBENCH WITH HIGH LOAD CAPACITY

- Wide drawers, large storage space and high load capacity for heavy and large tools

2

CUSTOMIZABLE AND FLEXIBLE

- Can be expanded with a rear wall, additional tools and sets in foam inserts

3

AGRICULTURAL MACHINERY TOOLS

- Tool selection specifically for service and maintenance work on agricultural machinery

4

EXTENSIVE EQUIPMENT

- Socket wrench sets in 1/4" and 1/2", pliers, screwdrivers impact tools and much more in top quality

"The range is perfect for the agricultural sector. I can fill the 3 empty drawers with the tools I already have."
